Fresh every day at J. Graaf & Co's old reliable bakery. 6-10-4f

NEWS BY TELEGRAPH

A Heartrending Railway Accident in Mexico.
A Train Load of Soldiers Hurlled Over a Bridge into Eternity.
Fire Followed the Wreck and Consumed the Living and the Dead.
A Maniac Kills the Captain of a Schooner and Fires the Vessel.
The Arkansas Valley Visited by a Destructive Rain Storm.
Washington Receives a Blast of Wind, Leaving Destruction in its Wake.
A Record of Murders, Suicides and Accidents.
Notes From Conkling's Crowd--Fresh Foreign News.

Terrible Railway Accident.
City of Mexico, June 24.--A terrible railway accident occurred on the road between this city and Vera Cruz yesterday in which a passenger train loaded with troops was thrown over a bridge and over two hundred people killed outright or burned to death.
ANOTHER ACCOUNT.
City of Mexico, June 24.--Another account says: A list of 17 officers and 197 privates were killed which does not include railroad officials and employees or the women and children of soldiers. Only sixty persons in all were saved alive and of these forty or more were more or less injured. For a moment after the plunge of the cars from the bridge all was darkness. Suddenly one hundred barrels of brandy loaded on two vans caught fire and the burning fluid inundated the mass of passengers struggling in the ruins. Only a few not disabled or hopelessly wedged in the timbers, escaped. The dead and living were wrapped in a sheet of flames and slowly burned before the eyes of the survivors who were unable to save them.

Kansas Catches Another Severe Storm.
Wichita, Kan., June 27.--One of the heaviest rain and wind storms accompanied by hail passed over this section last Friday night ever known. Five inches of water fell during the night and reports which have since come in say a section of country ten miles wide and twenty miles long in the Arkansas Valley west of here suffered very great damage. Thousands of acres of wheat, corn and oats were cut down level with the ground by the hail and even prairie grass was mown smooth. Orchards were stripped of their fruit. The wheat just stacked was soaked through and through and many buildings were seriously injured. Only one death is reported, that of E. Pendergast who was killed by lightning while standing at a window in his house.
Another storm nearly as severe swept this section Saturday night and did considerable additional damage.

Maniac Murderer and incendiary.
San Francisco, June 27.--The steamer Newberg brings the crew of the schooner Enstace from Mazatlan and particulars of the killing of the captain and firing of the vessel by a maniac cook. Cook who had shown signs of insanity suddenly stabbed the captain as he entered the cabin. He then ran into a closet where axes were kept. The crew closed the cabin doors. The cook continued walking about the cabin and several times threatened to fire the vessel. The crew got boats ready and soon after smoke began rising from the cabin and the crew left hastily as the vessel had 2,300 kegs of powder on board. Soon after she blew up. The maniac undoubtedly perished in the explosion. The crew reached Mazatlan after a sixteen mile pluck in a heavy sea.

Murder and Robbery.
San Francisco, June 27.--A Jackson, Amador county dispatch says: About three o'clock Saturday morning Ezra Degarmo was murdered in the Grass Valley hydraulic mining claim near Volcano. He was watchman on the claim and was armed with a shot gun. The body was found lying on a sluice box, penetrated by two balls. Both barrels of his gun were discharged. The robbers cleared up some sixty feet of boxes but how much amalgam they obtained is unknown. Four men have been arrested on suspicion.

Fatal Pistol Accident.
Laramie City, June 27.--Yesterday morning about eight o'clock while Robert Wilkins, was examining a self-cocking revolver in one of the rooms of the Custer House the weapon was discharged, killing a man named Stroch almost instantly. The coroner's jury acquitted Wilkins of all blame. The deceased was unmarried, about twenty-five years of age, a native of Pittsford, Pa. The body has been taken charge of by the Odd Fellows.

Horse Thieves Thrashed.
New York, June 27.--A Texas special says a number of Lasalle county horse thieves were overtaken at Fordillo yesterday by citizens, and a fierce fight ensued. The thieves being worsted, they surrendered, leaving one killed and one seriously wounded.

Assassination.
Little Rock, June 27.--James Anderson was murdered in his field while plowing. His homesteading of some land is supposed to be the cause.

The Stalwart Leaders.
New York, June 27.--The Tribune says: Ex-Senator Conkling was in Washington yesterday and telegraphed Platt that he would reach this city this afternoon. Platt and Conkling will go to Albany to-night to continue their hopeless fight for the Senatorship which they resigned. Vice-President Arthur will also return to the State capital to assist in any way he may direct.
Relations between Platt and Vice-President Arthur have not been cordial since Platt defeated Crowley in the race for the Senatorship last winter. There is also stalwart authority for stating that Conkling and Platt are not so cordial in their relations in a public light as is supposed. They frequently go to Albany on trains only a few hours apart and return the same way, apparently without purpose, not being thrown together any more than is necessary. A friend of Conkling's said yesterday that the Ex-Senator depended greatly upon the Vice-President's assistance and very little upon anything Platt might do.

GOING BACK ON PLATT.
It appears that Vice-President Arthur charges the downfall of the machine to Platt. He says Platt, to make sure of the defeat of Crowley to the Senate last winter and to secure his own election entered into an agreement with administration Republicans to support Judge Robertson for any office to which the President might nominate him. This was made known to the President and General Arthur is understood to have said that without this agreement Judge Robertson would not have been nominated. Collector till the question had been discussed with Conkling who would not then have felt called upon to resign. Ex-Senator Conkling now, it is said, begins to view this matter in the same light as the Vice-President. There are rumors of a growing willingness on his part to attempt to make Platt a scapegoat.

GROWING OPPOSITION TO CORNELL.
There is a growing opposition manifested by the Stalwarts toward Governor Cornell, a distinguished member of this wing of the party said yesterday, and there is no disguising the fact that the Governor does not longer sympathize with Conkling. He refused to attend or to confer further at any meeting at which Conkling made his anti-monopoly speech. The Governor is a candidate for the long term. Conkling, however, has ceased to place any confidence in the Governor.

DON'T EXPECT RE-ELECTION.
Conkling went to Washington according to one of his friends to attend to some personal affairs, among other things to surrender his rooms there which he has been keeping since his resignation. This friend said he only hoped to throw the contest over to another legislature and thus be able to return and dictate his successor.

PLATT'S VIEWS.
Platt said yesterday that Depew would be out of the race this week, after which the legislature would adjourn without electing anyone. He made a similar prophecy a week ago.

THREE BRIBERY COMMITTEE REPORTS.
A member of the committee which investigated Bradley's charges against Senator Sessions said there would probably be three reports made, one by Conkling members of the committee, one by administration Republicans and one by the Stalwarts. The last two reports he believed would not differ but the Stalwart report he believed would be a stinger for Depew.
Platt seemed to this report would end Depew's canvass in the same way as he thought the original charge would end it. If it does not have any more effect than the charges it will probably increase Depew's vote. Ex-Senator Conkling gives personal attention to the preparation of the report.
Senator Strahan was the only Republican who called on Platt yesterday. He has acquired unpleasant notoriety since Davenport's testimony and his friends are threatening revenge on Davenport on account of it.

Search for the Stewart Grave Robbers.
New York, June 27.--The Star says: We publish this morning another portion of the remarkable story of the search for the Stewart grave robbers. It covers the tracing of Mike Kelly to the west and shows the negotiations conducted by General Patrick H. Jones with the representatives of Judge Hilton, embracing numerous interviews in which it appeared that several prominent persons were connected with efforts for its recovery, and the travels of the body from New Jersey to an embalmer's, thence to Montreal in care of the woman in black and a year afterward to a secret place near Mt. Vernon, Westchester county.

Favorable Reports on North Park Mines.
Laramie City, June 27.--Professor G. C. Broadhead, State geologist of Missouri, who has just returned from a preliminary investigation of the mines in North Park, brings very flattering reports of the samples of ore brought from the Endomiler mine, owned by the North Park and Vandalia Mining and Smelting Company, assaying from eighty-six to eight hundred and three ounces in silver at a depth of thirty-two feet.

Wright Suicides.
Denver, June 27.--Yesterday morning a boarder at the Templeton House committed suicide by blowing the top of his head off. He is supposed to be J. A. Wright of Utah. The top of his head was blown to pieces and his brains scattered all over the floor and his eyes were hanging out of their sockets, making a most sickening sight. The weapon used was a large horse pistol. Cause of the deed not known.

Died.
New York, June 27.--Henry Strausbury of Cincinnati, died last night at 98 Fifth avenue, this city, in the seventy-ninth year of his age, of acute bronchitis.

Cablegrams.
SPANISH SPLINTERS.
New York, June 27.--The Herald's Madrid special says the Gazette publishes a decree dissolving the Cortes and fixing the date of the elections for Senators on September 2nd and for Deputies on August 21. The same dates are fixed for Colonial elections. The Cortes will meet September 21st.
The court and King Alfonso will leave for Lagrange July 2nd.

BIG BILLIARD MATCH.
Paris, June 27.--The four handed billiard match at cushion caroms between Vigneaux and Garvier against Plot and Slosson for a purse of 5,000 francs, six hundred points, was commenced this afternoon at Cirinque de Hevere. Judging from the frequent outbursts of applause which greeted the play the new game promised to surpass all others in interest, although two or three of the leading players do not favor it. The game was played on a 4x9 foot table. The game commenced at half past two and at half past five, at the close of the score, it stood Vigneaux and Garvier, 300; Slosson and Plot, 224. Of these aggregates each man's score was as follows: Vigneaux 198, Garvier 197, Plot 120, Slosson 104. The highest runs were Vigneaux 15, 17 and 20, Garvier 10, Plot 11, Slosson 13. The early part of the game Vigneaux played indifferently, but later on he displayed all his best qualities. Plot who has a great reputation on this side as a great cushion player, did not come up to the anticipations of his friends as will be seen by the score. The play was resumed at half past eight in the evening and the game did not close until past midnight. The score at the close stood thus: Vigneaux and Garvier, 600; Plot and Slosson, 577. Of these aggregates each player scored individually as follows: Vigneaux 378, Garvier 227, Plot 270, Slosson 298. The highest runs were Vigneaux 25, Garvier 10, Plot 14, Slosson 22. The total numbers of innings was 98 for each player. The evening's attendance was very large and great interest manifested in the result.

TROOPS IN CORK.
London, June 27.--It is estimated that there are 5,000 troops in Cork. Queenstown has not been abandoned but a fortress will be built.

MELIKOFF'S BAD GOVERNMENT.
A Times' St. Petersburg special says the endeavor of the present government is to show that the mild policy of the late government was eminently dangerous. The police are now engaged in bringing to light the danger which accumulated during General Melikoff's rule. Reactionists are making the most of the discovery of dynamite mines in order to frighten the court and secure their own position. Some inspectors seem to have been excited by the visit of Melikoff to Geneva. It is reported that spies have been retained to watch him.

RESTRICTING NEWSPAPERS.
St. Petersburg, June 27.--The newspaper press is located at the court by a single independent organ. Several penalties have lately been imposed upon three or four journals and several editors have received circulars ordering them to submit the first proofs of their papers to the press censor before four o'clock in the morning.
IRISH IRE.
London, June 27.--In the House of Commons to-day, in consequence of the answer from the Chief Secretary for Ireland in regard to a proclamation of Waterford, O'Donnell, Honorable member of the House, then moved an immediate adjournment. An Irish member denounced the proclamation as unjust and a cowardly abuse of the powers granted the government, and said that the reason of the proclamation of Waterford was that the Duke of Devonshire owned 80,000 acres of land in that county, and it was desired to enable his agents to imprison troublesome persons. Another speaker described Foster as Brummagem Castleburgh. Parnell said Foster had persevered in his Shameless course.

Washington Visited by a Severe Storm.
Washington, June 27.--A fearful storm of thunder, lightning and wind accompanied by hail occurred to-night. Some houses were blown down, many unroofed, and trees were torn up and sewers flooded. It burst the roof of the Armory and Medical Museum building, formerly Ford's theatre in which Lincoln was killed. It was torn in two, and two halves were blown in different directions. It unroofed the Masonic temple. An iron railing and other ornaments were blown from the pension office building. Much damage was done in all sections of the city.

Barbadoes' Backers.
New York, June 24.--It is reported that John H. Smythe, U. S. Minister and Consul General to Liberia is to be recalled. An effort is making to have appointed as Smythe's successor, Frederick G. Barbadoes, a prominent citizen of California, who has lived in Washington during the last few years. Barbadoes is a gentleman of good ability and his appointment to a diplomatic position has been recommended by nearly all the Massachusetts members of Congress and by Governor Long and other prominent citizens of that State. His appointment is also recommended by Ex-Senator Bruce and many prominent colored citizens of the United States.

A Tug's Voyage of Mercy.
San Francisco, June 27.--A tug went out at midnight to make another effort to take off the crew of the wreck of the Francisco from the island. She has not yet returned and her long absence is considered to imply success in effecting a landing.

Denver Dots.
Denver, July 27.--Great efforts are made to clear Stickney at his approaching trial.
The Denver Chariot Company have got into a squabble which may end in the dissolution of the company.

Sharp Shooters.
Denver, June 27.--In a shooting match of yesterday between the Tabor Sharp Shooters and the Breckenridge club, the score was Tabor, 417; Breckenridge club 378. Both clubs shoot on their own grounds and the scores were telegraphed of the Tabor, J. N. Lower made 46 out of possible 50, being the best score of the sharp shooters.

Weather too Pleasant for Summer Resorts.
New York, June 27.--The weather continues cool and proprietors of summer resorts hereabouts are pining for customers. Trains and boats to Coney Island and Rockaway yesterday were nearly empty. Long Branch had a pretty good crowd.

Epitomized Telegrams.
It is now certain that the Cornell crew will row at Henly.
The debt of Spain is said to be rapidly and satisfactorily decreasing.
Griscom, the faster, still holds out. He lost three-quarters of a pound yesterday.
All the gambling houses have been closed in St. Louis under the new gambling law.
The Howards beat the Columbia crew by three lengths in a four mile race at New London, Connecticut, yesterday.
The vote for Senators at Albany yesterday stood as follows: First vote--Potter 31, Conkling 24, Wheeler, 32, Cornell 2, Lapham 8, Hoskins 2, Rosch and Crowley 1 each. Second vote--Depew 31, Kernan 32, Platt 21, Cornell 4, Crowles 5, Hoskins 3.

A. & P. R. R.
A grading party of the Atlantic and Pacific R. R. Company broke ground, on the 16th inst, at a point on the Colorado river ten miles above the Needles. Work is being done on both sides of the river and a bridge crossing is evidently being located. It would seem not to be a good one as there will be at least a mile of piling and trestle work required on the Arizona side. The party is in charge of Civil Engineer Bates, and went up the river from this place on the last trip of the Mohave. The workmen were seemingly very desirous of keeping their business secret, representing themselves to the captain and passengers on the steamer as prospectors.
Yuma Free Press.

The great comet of 1807 is thought to be that which recently put in an appearance. On its first discovery this comet excited much interest among scientists and not a little alarm among the superstitious. There is no satisfactory record of its discovery, but both Bissell and Herschel observed its orbit and made various calculations. The diameter of its nucleus as measured by Herschel was found to be 588 miles. It was taken to be periodic, and Bissell, the eminent German astronomer, calculated its return in 1,548 years.

Wells, Fargo & Co's Express.
Everything is in readiness with the Wells, Fargo & Company's Express to receive expressage to all points east and west, local or foreign. We have a favorable rate to all points for those wishing to express merchandise or treasure. The Las Vegas office is at the depot, and is open from 7 a. m. until 8 p. m. A wagon will call two or three times a day in both East and West Town, and parties having goods to express can send them to the office without further trouble.
5-8-4f C. P. Hovey, Agent.
